

XM is about delivering the best product, the best choices and the greatest convenience to the American public. We have the choice to select who will provide information to us. XM Radio delivers a pristine product of utmost quality. The subscribers wish to continue to receive the service as XM has intended it. Waiting for an FM/AM station to deliver weather and news at irregular intervals, interspersed among idle chatter and annoying commercials is not what we want. I fully support XM Radio and want to continue to enjoy the service as it is. Satellite radio is providing quality entertainment that is unparalleled by any regular broadcast medium. This is what we pay for. I respectfully urge you to REJECT the National Association of Broadcasters' petition 04-160 and request that you leave XM Radio and any other satellite service providers alone to continue to provide this valuable service. Thank you!
